**PRICE HEARING WORKSHOP**

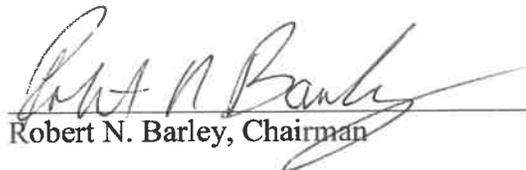

The most recent cost replacement hearings have raised issues for which the Board would like either clarification or more detailed explanation. These issues include, but are not limited to

- the existence of Area 2
- the inclusion of non-processing dealers in dealer cross sections
- how, and to what extent, non-processing dealer costs are calculated and included in area dealer costs
- the sales weighting method generally
- how dealer cross sections are selected.

The Board believes that a workshop format would be the most efficient way to address the issues.

The Board will consult with interested parties to develop an agenda and procedure for conducting the workshop. Scheduling information will follow.
