

Galliker Dairy Notes:

With over 100 years in business, the Galliker Dairy Co. is a 3rd generation family-owned dairy centered in Johnstown, PA, with an additional processing plant in Cumberland, MD. Founded in 1914, the dairy started solely as an ice cream company. In the mid 1920s, fresh milk was added to its portfolio of products. Today Galliker's offers a wide array of milk, iced tea, juice, and ice cream flavors, as well dips and other items. Our products can be found throughout Pennsylvania, Maryland, and several other states.

One of Galliker's claims to fame is the signature "Light Safe" yellow jug. Widely recognized within the marketplace as a symbol for quality and freshness, this innovative package blocks ultraviolet lights that can adversely affect the flavor and quality of milk. The yellow jug celebrated its 25th anniversary in 2017...HELLO YELLOW!

In 2014, Galliker Dairy began a "feature flavor" milk program, introducing Birthday Cake flavored milk, which was launched in celebration of the dairy's 100th anniversary. Since that time, Galliker's has introduced over eight different feature flavors, some of which include pumpkin pie, s'mores, and chocolate mocha mint. These innovative flavors help keep the dairy case an interesting place to visit!

In recent months, Galliker Dairy introduced a "lactose free" version of their popular 2% reduced fat milk with the goal of allowing those with some dietary restrictions the ability to enjoy locally sourced, real milk from a homegrown company.

Today, under the direction of Louis G Galliker III, the dairy continues to provide quality dairy products from locally sourced independent milk. Our hardworking farmers & employees are a big part of what makes Galliker Dairy Company the refrigerator staple and household name it is today. We are committed to providing quality, innovative products to our respected and loyal customers for years to come. From our family to yours, we thank you for your continued support of our mission to provide tasty, wholesome, and local dairy products to our community for generations to come!
