DATE: July 15, 2020

SUBJECT: Over-Price Premium Hearing
Hearing scope

TO: Interested Parties

FROM: Robert N. Barley
Chairman

On July 8, 2020, the Board received a motion from the Pennsylvania Association of Milk Dealers (“PAMD”), the petitioning party, requesting the scope of the August 5, 2020, over-price premium hearing be expanded.

PAMD’s petition requested a hearing to consider the adjusting the cross section used to calculate the over-price premium. The Board approved that petition and issued a hearing notice accordingly.

PAMD’s motion s requested the scope of the hearing be expanded to allow evidence and testimony regarding the handling of milk purchases by over-price premium cross section dealers that do not have a minimum price due or over-price premium due to cooperative ownership of the relevant plants. No interested party objected to the request.

PAMD’s motion is granted. The scope of the hearing will be expanded to consider, in addition to cross section membership, evidence concerning the handling of milk receipts by over-price premium cross section dealers that do not have a minimum price due or over-price premium due to cooperative ownership of the relevant plants.
