Re: Small Delivery Cost Hearing

Dear Chairman Brubaker and Members of the Board:

When the new dates for pre-submissions and the Small Delivery Cost Hearing were set, the Board stated that they were contingent on Board Staff's review and concurrence in the route selections. As stated in Dave DeSantis' testimony, Board Staff do not concur about the route selections, and would require more time to review and respond to them.

However, Board Staff is now presenting an alternative method of calculating the small delivery cost, which is described in our rebuttal submission. We believe that PAMD may present a comparable (but not identical) method in their surrebuttal, but not withdraw their route-based submission.

We are aware of PAMD's desire not to further delay this hearing and therefore have not requested a continuance. However, if it would develop that the Board wishes to have Board Staff respond to the PAMD route-based submission, we would appreciate being granted significant additional time to respond.

Thank you for your consideration.

Respectfully submitted,

Andy Saylor

Andrew L. Saylor
